

Art Appreciation
Frank Lloyd Wright

Frank Lloyd Wright – Architecture – looking at the Triptych Window

Project Ideas including Materials Needs:

Create their own stained glass window.

Cut sheets of transparency in half – one per child.

Sharpie–type permanent marker for each child

Crayons to share

Newspaper to place on their desks so sharpie doesn't stain

Have each child design a geometric design on white paper with pencil. Place the transparency sheet over it and trace the pencil lines with the marker. Color in the sections with crayons, trying not to leave any white.
